

LodgeNet | Broadband Converge Solution

For when nothing short of everything will do.

If you're looking for a broadband solution that has it all, your search ends here.

Full-property coverage. State-of-the-art security. All the reporting you'll ever need. And dedicated conference services with the features that really matter to group and convention clients.

So instead of wishing your broadband system could do more – or wondering if it's working – you can spend your time making money from your network. And making your guests happy.

FEATURES

- **Bandwidth Management** / Hundreds of Layer 7 bandwidth profiles are available for assignment to guests, associates, and business center users
- **Security Management** / Advanced security including 802.1X policy mapping for property owned equipment, Layer 7 application security, and full log reporting for PCI compliance (requires on-site Web server)
- **Conference Services** / Add invoicing, custom portals for conferences, and on-the-fly network security changes
- **Guest Portal** / WYSIWYG page editor gives the hotel the ability to support multiple looks and feel across the property through custom portals and splash pages
- **Centralized Reporting** / Advanced Business Intelligence engine with comprehensive custom reporting included

BENEFITS

- **Maximizes Your Broadband Revenue Potential** / With more granular billing options for specific group profiles, greater customization and robust security features
- **Gives You The Information You Need To Succeed** / Comprehensive reporting keeps you up-to-date on your network and usage, 24/7
- **Supports A Converged Network Environment** / Put it all together to increase guest satisfaction, streamline system management and get a better ROI from your network
