

Putting the power of Envision™ in your hands.

The LodgeNet PowerPortal™ gives hotel staff everything they need to add, delete or update content on your Envision interactive HDTV (iHDTV) system.

We're talking serious power. To keep your guests informed. Get their feedback. Respond to requests. Eliminate in-room materials. And generate more revenue from every guest – and every room.

FEATURES

- **Rights Managed** / Password protocol ensures that only authorized staff can login; multiple access levels are supported
- **Web Based** / Cloud processing means no software is downloaded to hotel computers
- **Remote Accessible** / Through any Web enabled computer
- **Comprehensive Control** / Over a broad range of Envision apps including:
 - ▼ **Guest Info** – eliminate costly and outdated in-room compendiums by putting your information on the TV and updating it as often as needed
 - ▼ **In-Room Dining** – manage and edit menus as often as desired for specials, new items, price changes, etc. while having the ability to upsell or recommend a pairing
 - ▼ **Happenings Channels** – create playlists for content in your free-to-guest channel lineup
 - ▼ **Guest Request** – configure options for your guests to choose from; automate your guest requests without a full management system and send requests for towels or housekeeping directly to your staff
 - ▼ **Guest Survey** – update interactive survey questions and see responses in real time

BENEFITS

- **Higher Revenues** / Happy, informed guests are likely to spend more time (and money) on-property, while real-time editing capabilities empower you to capitalize on “in the moment” promotional opportunities
- **Increased Guest Satisfaction** / Up-to-date information and responsive staff create a better guest experience – and increase your chances of repeat and referral business
- **Reduced Environmental & Staff Impact** / Migrating your hotel information, promotions and guest survey to the TV can eliminate the cost, paper usage and labor associated with printed materials
- **Enhanced Brand Efficiencies** / Update multiple properties with just one click
