

LodgeNet Broadband Wired Solutions

LodgeNet offers a wide range of wired broadband connectivity solutions for guest rooms, meeting rooms and public areas. These reliable, secure solutions are flexible enough to accommodate virtually any hotel's wiring infrastructure and are backed by the industry's largest service and support network and the expertise of our Professional Solutions Group.

BENEFITS

- Delivers the reliable, secure connectivity experience that travelers expect and demand.
- Provides opportunities for incremental revenue.
- Utilizes on-site, real-time control over pricing and bandwidth allocation for optimized revenues and system performance.*
- Enables capital savings (especially for hotels with older wiring) through Ethernet over Copper (EoC) options that do not require property renovation or re-cabling.

KEY FEATURES

- Connection agnostic: Broadband Access Server supports a variety of broadband connections to the Internet including xDSL, ISDN, cable, T1/T3, satellite, blended solutions and frame relay.
- Best-in-class technologies: Our systems utilize technology from world-leading suppliers including Cisco and Motorola.
- Advanced security: VLAN technology, enhanced server firewalls and switching enable the most secure solutions available today.
- Exclusive customization: Our staff of RF professionals performs all site design, survey and engineering for each installation.
- End-to-end deployment: Our in-house experts are always available and watching every installation. We monitor each system all the way to the access point.
- On-site staff training provided: To make sure both your staff and your guests have the best experience possible.
- Differentiated conference room service: Separates service between guest rooms and meeting spaces.
- Pro-active monitoring and support: A resolution-based Customer Care team and a nationwide field service organization help keep your guests online.
- Low voltage wiring services: Available guidance from our Professional Solutions Group for hotels wanting to upgrade their cabling infrastructure.

LodgeNet enables over **four million connections** a month for travelers across North America.

Less than 1% of all LodgeNet enabled connections **require a service call.**

From LodgeNet internal research, 2008.
