

# LodgeNet | Broadband Wired Solutions

## FEATURES

- **Best-in-class technologies** / Our systems utilize technology from world-leading suppliers including Cisco and Motorola.
- **Advanced security** / VLAN technology, enhanced server firewalls and switching enable the most secure solutions available today.
- **Exclusive customization** / Our staff of RF professionals performs all site design, survey and engineering for each installation.
- **End-to-end deployment** / In-house experts are always available and watching every installation. We monitor each system all the way to the access point.
- **On-site staff training provided** / To make sure both your staff and your guests have the best experience possible.
- **Differentiated conference room service** / Separates service between guest rooms and meeting spaces.
- **Pro-active monitoring and support** / A resolution based Customer Care team and a nationwide field service organization help keep your guests online.
- **Low voltage wiring services** / Available guidance for hotels wanting to upgrade their cabling infrastructure.

## BENEFITS

- **Guest Experience** / Delivers the reliable, secure connectivity experience that travelers expect and demand.
- **Revenue Opportunities** / Provides opportunities for incremental revenue.
- **Bandwidth Control** / Utilizes on-site, real-time control over pricing and bandwidth allocation for optimized revenues and system performance.
- **Economical** / Enables capital savings (especially for hotels with older wiring) through Ethernet over Copper (EoC) options that do not require property renovation or re-cabling.

## The world depends on networks.

Your hotel guests depend on reliable Internet connections and dependable sources for entertainment and communications. And as technology continues to grow, it's going to be more critical than ever. That's why you need the dependability and expertise of LodgeNet for your wired network backbone.

- LodgeNet enables over **four million connections** a month for travelers across North America.
- **Less than 1%** of all LodgeNet enabled connections **require a service call**.
