

The power of a computer,  
the convenience of a TV.

It all comes together here. With an Apple® Mac mini integrated into the LodgeNet IPTV platform, you have a reliable, customizable thick-client solution that delivers TV- and Web-based entertainment and supports next-generation interactive applications. All to create a rich, highly personalized guest experience as unique as your hotel. Think of it as HDTV with horsepower.

## REQUIREMENTS

- LodgeNet IPTV platform (VOD/FTG) in the hotel
- Mac® mini in each guest room
- Certain functionality and/or applications may also require a custom remote control

## POTENTIAL APPLICATIONS

- **Main Menu with Feature-Rich Look and Feel** / The ability for hoteliers to customize Main Menu elements to match their brand
- **VOD Search Capabilities** / Unseen in today's market
- **Unique Interactive Programming Guides** / For a richer viewing experience
- **E-Commerce Capabilities** / Allowing properties to advertise and sell their hotel products through the interactive TV menu
- **Custom Menu Backgrounds** / Room-by-room customization (for example, photos provided by a frequent guest displayed in his or her room)
- **GuestPortal™** / Interactively providing guests with vital property information
- **In-Room Dining** / Graphics-rich menus to increase promotional impact and enhance the in-room experience by enabling guests to order interactively through the TV

Mac® mini
