Preparation is the key to avoiding pitfalls that can delay the implementation of your hotel's TV and broadband solutions and cost you time, money, and guest satisfaction. With more than 150 years of combined expertise, LodgeNet's Professional Solutions Group will help you deploy your solution right – the first time – by mapping out a plan that's custom tailored for your property. Keep your project on schedule, your costs under control and your guests happy.

BENEFITS

- Safeguards against unanticipated surprises that can prolong your project and increase its cost.
- Allows for peace of mind knowing your solution will be installed with as little inconvenience to your guests (and staff) as possible.
- Utilizes the expertise of designers and engineers with more than 150 combined years deploying media and connectivity solutions for hotels.

KEY FEATURES

- Personalized attention: From a dedicated LodgeNet analyst who will become an expert on your project and your property – inside and out.
- Network design plans: Covering your property's MATV (cable) and/or IP (data) infrastructure as applicable.
- Equipment reports: Detailing what TVs, additional in-room media components and ancillary hardware (e.g., mounts) are to be utilized – and why.
- Room design/layout map: Graphically representing how your solution will integrate with the total room environment.
- Scope-of-work documentation: Specifically outlining each step of your project and when it will be completed.
- Solution customization: Extending your hotel brand onto the television with customized backgrounds and messages.
