You already have plenty to do to manage your business. Wouldn't you rather let a technology expert coordinate and manage all the details involved in upgrading your hotel's TV and broadband solutions? With a proven track record covering thousands of hotels over nearly three decades, LodgeNet is the company you can trust to oversee your project from start to finish so no detail gets overlooked. That way, your solution is deployed on time, within budget and in a way that exceeds your expectations – and those of your guests.

BENEFITS

- Incorporates the ease of having a single point of contact for every aspect of your technology implementation.
- Provides proactive protection against unanticipated surprises that can prolong your project and increase its cost.
- Allows for peace of mind knowing your solution will be implemented with as little inconvenience to your guests (and staff) as possible.

KEY FEATURES

- Logistics management: Defining, scheduling and assigning project activities to accommodate your timeline and budget.
- Resource coordination: Ensuring that operational resources and equipment arrive on time and in the right order to execute the project efficiently from start to finish.
- Comprehensive documentation: Logging and reporting of all project related issues.
- Consistent monitoring: Including day-to-day progress as well as project change orders.
- Update reporting: Including project activity accomplishments, issue resolution and impacts of change orders on your project's timeline and budget.
